14 REPUBLIC OF CHINA TAXATION

The following summary of certain taxation provisions under ROC law is based on current law and practice as at the date of these Final Terms and is subject to any changes in law occurring after such date, which changes could be made on a retroactive basis. It does not purport to be comprehensive and does not constitute legal or tax advice. Investors (particularly those subject to special tax rules, such as banks, dealers, insurance companies and tax-exempt entities) should consult with their own tax advisers regarding the tax consequences of an investment in the Notes.

Interest on the Notes

As the Issuer of the Notes is not an ROC statutory tax withholder, there is no ROC withholding tax on the interest to be paid on the Notes.

Payments of interest under the Notes to an ROC individual holder are not subject to ROC income tax as such payments received by him/her are not considered to be ROC sourced income. However, such holder must include the interest in calculating his/her basic income for the purpose of calculating his/her alternative minimum tax (the **AMT**), unless the sum of the interest and other non-ROC sourced income received by such holder and the person(s) who is (are) required to jointly file the tax return in a calendar year is below 1 million New Taiwan Dollar (**NT\$**). If the amount of the AMT exceeds the annual income tax calculated pursuant to the AMT Act, the excess becomes such holder's AMT payable.

ROC corporate holders must include the interest receivable under the Notes as part of their taxable income and pay income tax at a flat rate of 20 per cent. (unless the total taxable income for a fiscal year is under NT\$120,000), as they are subject to income tax on their worldwide income on an accrual basis. The AMT is not applicable.

Sale of the Notes

In general, the sale of corporate bonds or financial bonds is subject to 0.1 per cent securities transaction tax (**STT**) on the transaction price. However, Article 2-1 of the ROC Securities Transaction Tax Act prescribes that STT will not be levied on the sale of corporate bonds and financial bonds from 1 January 2010 to 31 December 2026. Therefore, the sale of the notes will be exempt from STT if the sale is conducted on or before 31 December 2026. Starting from 1 January 2027, any sale of the notes will be subject to STT at 0.1 per cent of the transaction price, unless otherwise provided by the tax laws that may be in force at that time.

Capital gains generated from the sale of bonds are exempt from income tax. Accordingly, ROC individual and corporate holders are not subject to income tax on any capital gains generated from the sale of the Notes. In addition, ROC individual holders are not subject to AMT on any capital gains generated from the sale of the Notes. However, ROC corporate holders should include the capital gains in calculating their basic income for the purpose of calculating their AMT. If the amount of the AMT exceeds the annual income tax calculated pursuant to the AMT Act, the excess becomes the ROC corporate holders' AMT payable. Capital losses, if any, incurred by such holders could be carried over 5 years to offset against capital gains of same category of income for the purposes of calculating their AMT.

15 ROC Settlement and Trading

Initial subscription of the Notes by investors will be settled directly through Euroclear or Clearstream, Luxembourg. In order to purchase the Notes, an investor must have an account with Euroclear or Clearstream, Luxembourg and settle the Notes through such account with Euroclear or Clearstream, Luxembourg. For any ROC investor having its own account with Euroclear or Clearstream, Luxembourg, the distributions of principal and/or interest for the Notes to such holders will be made to its own account with Euroclear or Clearstream, Luxembourg.

As of the date of these Final Terms, the Issuer has not entered into any settlement agreement with the Taiwan Depository & Clearing Corporation (the **TDCC**) and has no intention to do so.

In the future, if the Issuer enters into a settlement agreement with TDCC, an investor, if it has a securities book-entry account with a Taiwan securities broker and a foreign currency deposit account with a Taiwan bank, may settle the Notes through the account of TDCC with Euroclear or Clearstream, Luxembourg if it applies to TDCC (by filing in a prescribed form) to transfer the Notes in its own account with Euroclear or Clearstream, Luxembourg to such TDCC account with Euroclear or Clearstream, Luxembourg for trading in the domestic market or vice versa for trading in overseas markets. For settlement through TDCC, TDCC will allocate the respective Notes

position to the securities book-entry account designated by such investor in the ROC. The Notes will be traded and settled pursuant to the applicable rules and operating procedures of TDCC and the TPEX as domestic bonds. For such investors who hold their interest in the Notes through an account opened and held by TDCC with Euroclear or Clearstream, Luxembourg, distributions of principal and/or interest for the Notes to such holders may be made by payment services banks whose systems are connected to TDCC to the foreign currency deposit accounts of the holders. Such payment is expected to be made on the second Taiwanese business day following TDCC's receipt of such payment (due to time difference, the payment is expected to be received by TDCC one Taiwanese business day after the distribution date). However, when the holders will actually receive such distributions may vary depending upon the daily operations of the Taiwan banks with which the holder has the foreign currency deposit account.

2.4 Calculation Formulae Applicable Specifically for Rate Linked Notes: Redemption Provisions

Callable Zero Coupon

Applicable

The Callable Zero Coupon is a non-interest-bearing product whereby the Issuer has the option to redeem on Optional Redemption Dates prior to the Maturity Date. Upon redemption, optional or at maturity, the remuneration is included in the Redemption Price.

Redemption Provision

In respect of each Optional Redemption Date i:

$$\text{Redemption Price}(i) = (1 + \text{FXR}) ^ D(i)$$

On the Maturity Date, if the Issuer’s Option has not been exercised:

$$\text{Redemption Price} = (1 + \text{FXR}) ^ M$$

Where:

- **FXR** means a percentage specified below.
- **M** means the number of years in the period from, and including, the Issue Date to, but excluding, the Maturity Date.

And in respect of each Optional Redemption Date i:

- **D(i)** means the number of years in the period from, and including, the Issue Date to, but excluding, the Optional Redemption Date i.

Elements of the formula for the calculation of the Redemption Price:

FXR means 3.23%
